# 10<sup>th</sup> Applied LAPAROSCOPIC Urology Course & Symposium

INTERNATIONAL  
16-18 SEPTEMBER, 2010

## PROGRAMME BOOK

Dear Colleagues,

On behalf of the **Endourology and Laparoscopy Section** of the Hellenic Urological Association, the **Executive Committee** of Turkish Urology Association, the **Experimental-Research Center** ELPEN Farma and all members of the organizing committee, it is our pleasure to introduce the 10<sup>th</sup> International Applied Laparoscopic Urology Course and Symposium, which will be held in Athens, Greece between 16-18 September, 2010.

Over the years, the Applied Laparoscopic Urology Symposium has been one of the major meetings for Turkish and International Urologists. During the past years Greek Urologists have been actively involved both as trainers and trainees. The collaboration between the Greek and Turkish Urologists led to the establishment of a strong friendship among each other.

We are proud to present the common efforts of the two teams in the form of a scientific program that we hope to be attractive to both experienced and junior Urologists. The program has been focused on basic and advanced Urologic Laparoscopic techniques; it will be vivid and active all the way through and will catch up on the major theoretical and applied advances in laparoscopic and robotic urology.

We are looking forward to exchanging with you ideas, techniques and friendship during this fascinating Laparoscopic Urology Symposium in Athens
