WELCOME WORD

This year we will organize the laparoscopic urology course with the desire of helping you as an operating team to make the first steps or to improve your technique with us, in a friendly atmosphere where you can progress without the pressure of the beginning of the learning curve in human subjects.

The laparoscopic surgery is a teamwork, fact that determined us to adapt the course to creating teams not lonely surgeons. This year the course is preceded by a minimally invasive masterclass for resident doctors and during the course, continuing the tradition, there will be organized a different session, free of charge, for instrumental nurses. This way we try to offer your whole team the chance to improve themselves to deal with the situations that any debut involves.

After finishing the course and the stay at Cluj, we encouraging you to ask us to assist you at your first interventions, assuring you a debut with as little as possible risk and emotions.

We invite you, at the beginning of the summer, to enjoy the wonderful atmosphere of Cluj.

Joining our laparoscopic surgeons club you have the opportunity to discover some great friends who can be priceless for the beginning of your career.

Kindest regards,

DR. BOGDAN PETRUȚ
